

ENSIGHT

Skills Center, Inc.

for visual rehabilitation

Ensign's On-Site Low Vision Assessment We Will Come To You

Ensign Skills Center serves anyone having difficulty with activities of daily living (reading, cooking, personal care, seeing faces) related to vision loss.

Vision loss has many causes. Some of the most common causes of vision loss are degenerative eye diseases like macular degeneration, glaucoma, and diabetic retinopathy.

This is when visual rehabilitation services can help optimize the use of remaining vision through training and adaptive aids.

Ensign is coming to you. The first appointment with our Doctor and Occupational Therapist will determine an individualized plans that meets your needs and goals. To schedule an appointment with our Low Vision Optometrist and Occupational Therapist please call the Ensign staff at 970-407-9999.
